

Scott's family asked me to say a few words about Scott. We have been very close friends for 35 years.

Scott loved life and lived every day to it's fullest. He loved his family - Heather & Heidi and was the proudest grandfather when little Savannah was born. He loved his trucks and his business. Scott was a very talented man. Everything he did - he did very well. He has done everything from farmer to carpenter, welder, heavy equipment operator to truck driver. He was very meticulous and his work was done with great pride. Scott worked hard and Scott played hard. He was an excellent snow skier, water skier, snowmobiler and hunter.

Scott and I had talked about death. He did not fear it. He had several close calls and that is why he lived every day to it's fullest, knowing it could be his last. Everyone of us are going to retain a little bit of Scott within us. Maybe his pride, maybe his love of life or maybe that big smile that was always on his face. Heaven got a great man when they got Scott Rehn. We know he is in a better place, but we are going to miss him very much.
