

Bill,

I cannot begin to tell you how this information has made me feel. First I can't imagine having a loved one murdered in such a horrific way, now to have the convicted murderer free!! This man is on our streets whether he is in Nevada or elsewhere in our country to do his evil again. He murdered two people and only spent 12 years in prison?

Why on earth do we as a nation sentence someone like Martha Stewart to prison make her wear an ankle bracelet while on parole, and yet we let someone like this out of prison? I'm sure our streets weren't any safer with Martha behind bars. I believe Martha Stewarts penalty would have a bigger impact on her and others like her (white collar crimes) if we hit them in the pocket book hard.

I remember Scott Rehn and how shocked I was 12 years ago to learn of his death, now for his daughter to relive his death this way is just not fair.

I have printed her letter on paper and will certainly share this with my friends and neighbors in the country club community in which I live. The average age is over retirement, these people will be outraged.

Please give Heather my sincere apologies for the short sided and callous individuals within the District Attorney's office who have seen fit to make her a victim again.

Unbelievable!!!

Karen Wegener
